Legionellosis
Leptospirosis
Listeriosis
Lyme disease
Malaria
Measles
Mumps
Neisseria meningitidis, invasive
Outbreaks of public health significance
Pertussis (whooping cough)
Plague (immediate)
Poliomyelitis (immediate)
Powassan virus
Psittacosis
Q fever (Coxiella burnetii)*
Rabies, human and potential human exposure and animal

Reye's syndrome
Rubella
St. Louis Encephalitis virus
Salmonellosis, other than typhoid
Severe Acute Respiratory Syndrome (SARS) (immediate)
Shigellosis
Smallpox (immediate)
Smallpox vaccination, complications of
Snowshoe hare virus
Spotted fever rickettsioses
S. aureus infections with intermediate or high level resistance to vancomycin Streptococcal infections, Group A, invasive including STSS and necrotizing fasciitis
S. pneumoniae, invasive in those <5 yrs
Syphilis
Tetanus
Toxic shock syndrome due to *S. aureus*
Trichinosis
Trivitattus virus
Tuberculosis
Tularemia*
Typhoid fever
Typhus
Varicella (chickenpox)
Vibriosis (non cholera)
West Nile virus
Western Equine Encephalitis virus
Yellow Fever virus
Zika virus

**If bioterrorism suspected then report immediately (within three hours)*
***Reportable to the Extensively Drug-Resistant Organism (XDRO) Registry by providers*

Laboratories must report positive test results of these diseases to their local health department within the time frame indicated.

All reports are confidential and should include—

- the disease or condition being reported
- patient's name, date of birth, age, sex, race/ethnicity, address, and telephone number
- physician's name, address, and telephone number
- method of diagnosis, if available

TO REPORT A CASE contact your local health department:

During regular business hours, call Cass County Health Department:
217-323-2182 or 217-452-3057

If no local health department is available, contact the
Illinois Department of Public Health
217-785-7165 • TTY (hearing impaired use only) 800-547-0466
